

Multi-Vendor E-Commerce Marketplace

Industry: Online Marketplace / Digital Commerce

- Services Provided:
- Marketplace Website Development
 - Android App Development
 - iOS App Development
 - Vendor Management System & Admin Panel

PROJECT OVERVIEW

Local Mandai required a scalable multi-vendor eCommerce platform designed to connect multiple sellers with customers through a unified digital marketplace. The objective was to build a complete commerce ecosystem supporting vendor onboarding, product management, customer orders, and mobile-first shopping experiences across web and mobile applications.

Profcyma Global developed a fully integrated marketplace solution with synchronized web, Android, and iOS platforms supported by a centralized backend infrastructure.

BUSINESS OBJECTIVES

- Enable multiple vendors to register and manage their own products
- Provide customers with a seamless shopping experience
- Support mobile commerce via Android and iOS applications
- Centralize order, commission, and vendor management
- Ensure scalability for increasing vendors and transactions
- Deliver a secure and performance-optimized platform

OUR SOLUTION

We engineered a full-featured multi-vendor marketplace platform consisting of:

- ✓ Customer-facing website
- ✓ Android mobile application
- ✓ iOS mobile application
- ✓ Vendor dashboard
- ✓ Admin control panel
- ✓ Scalable backend architecture

KEY PLATFORM FEATURES

01. Customer Experience

Customer Experience

- Cab Booking
 - Category-based product browsing
 - Vendor-wise product listings
 - Secure cart & checkout system
 - Order tracking and history
 - Mobile-optimized shopping interface

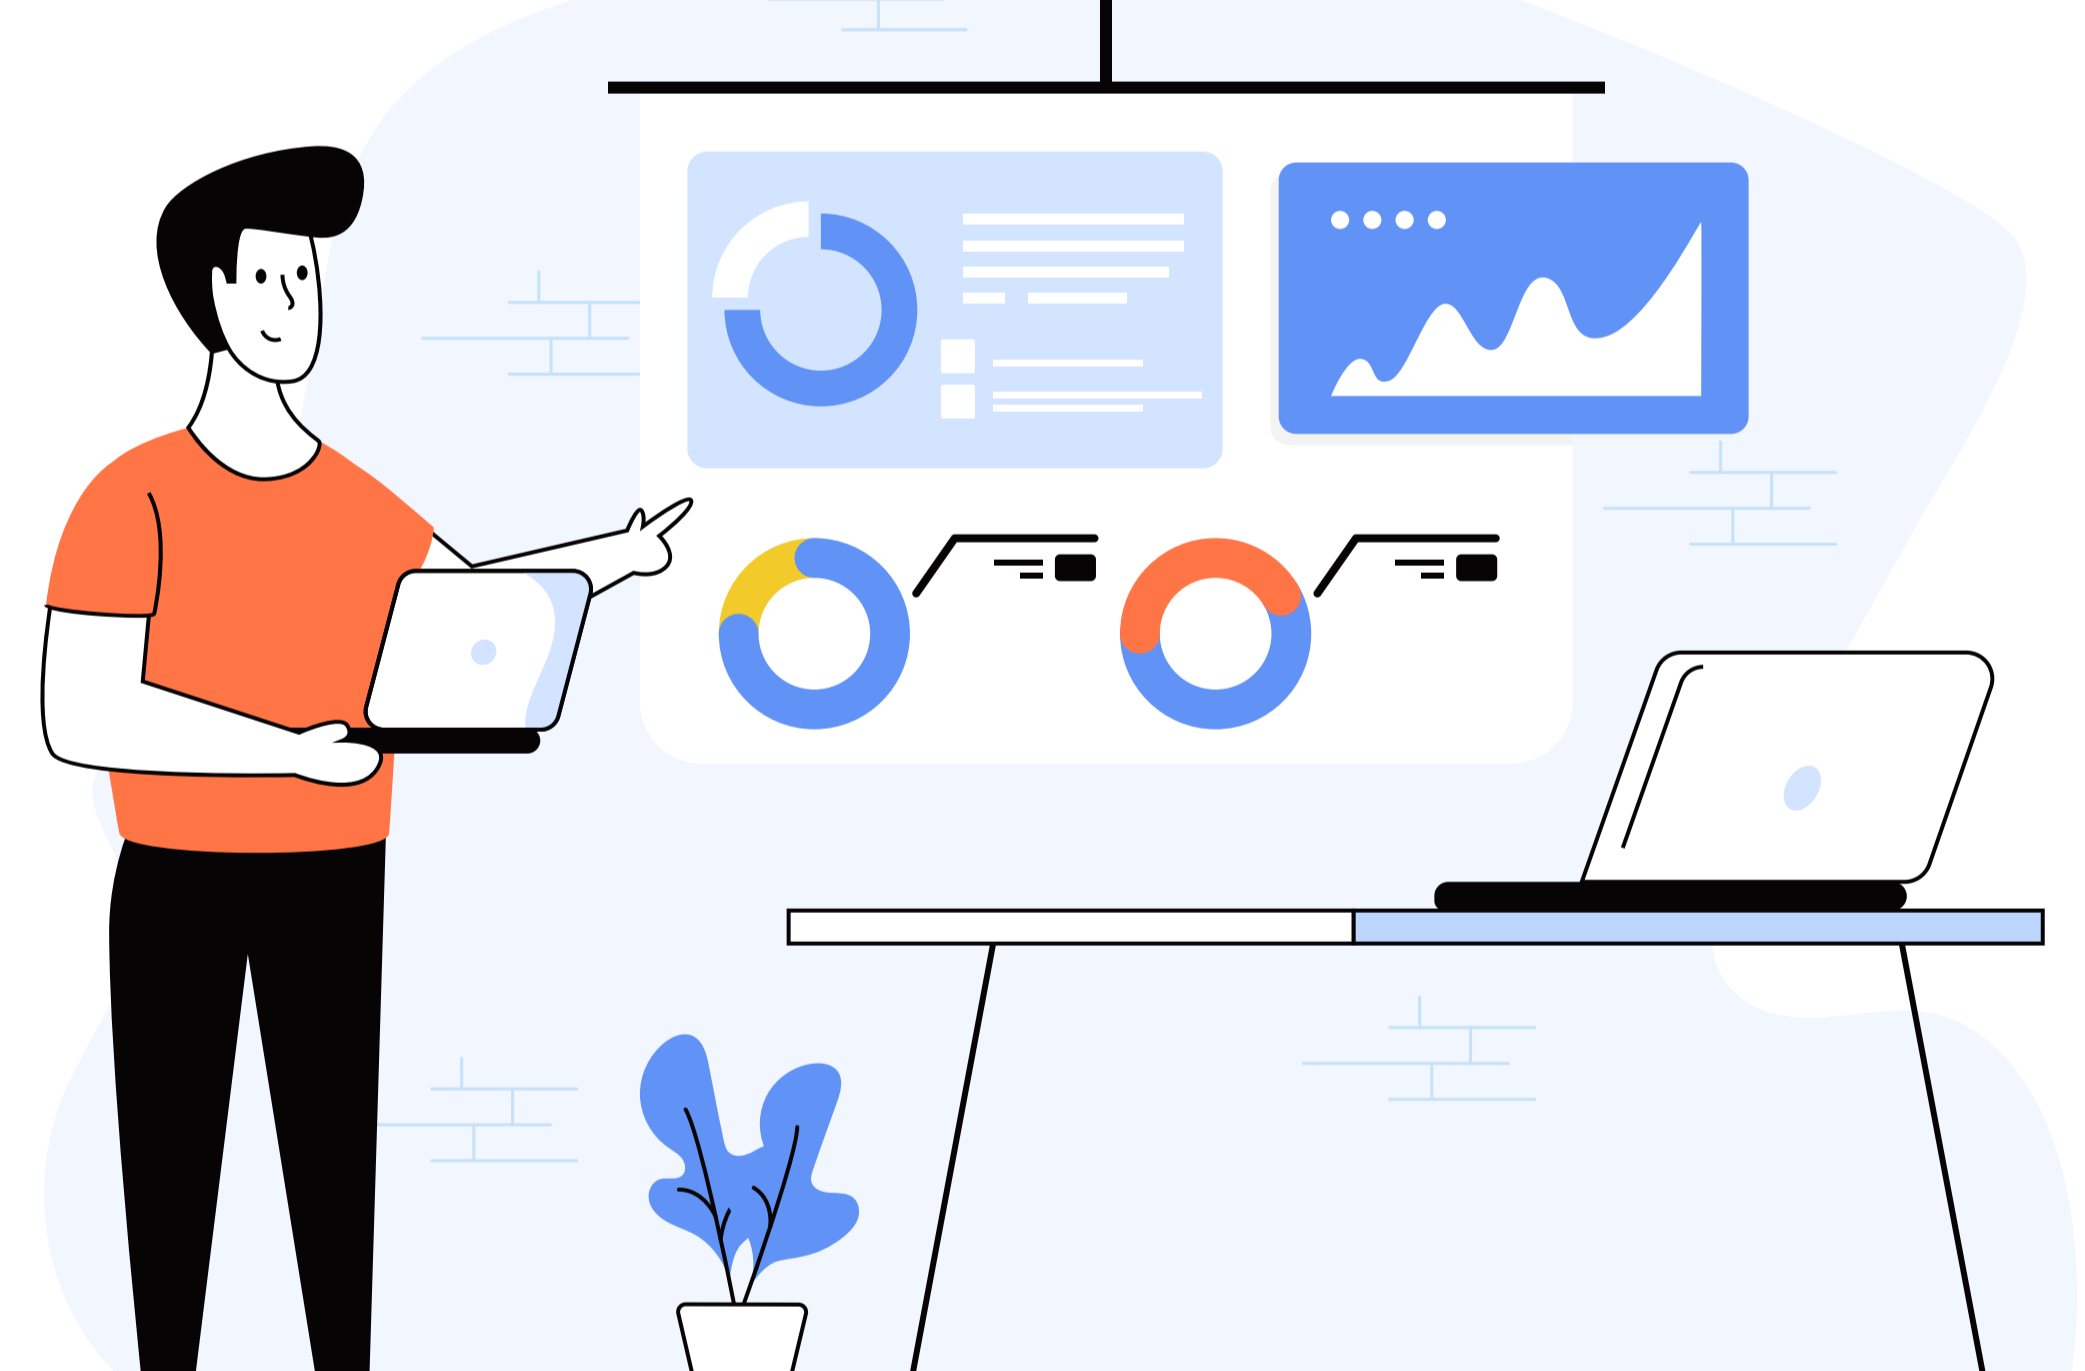

02. Vendor Management System

- Vendor registration & approval
- Individual vendor dashboards
- Product upload & inventory control
- Order management per vendor
- Commission structure support

03. Admin Panel

- Vendor approval and monitoring
- Centralized order management
- Commission and revenue control
- Platform analytics & reports
- User management

04. Mobile Applications (Android & iOS)

- Seamless browsing and checkout
- Real-time order updates
- Optimized mobile performance
- Cross-platform synchronization

RESULTS & IMPACT

The Local Mandai platform successfully launched as a scalable multi-vendor digital marketplace, enabling multiple sellers to operate within a unified commerce system. By integrating web and mobile applications into a centralized infrastructure, the solution provides a strong foundation for marketplace expansion, increasing vendor participation, and growing transaction volumes.

WHY THIS PROJECT STRENGTHENS PROFCYMA GLOBAL'S PORTFOLIO

This project demonstrates our expertise in building complex multi-vendor marketplace ecosystems with cross-platform mobile integration. It highlights our capability to manage multi-role user systems, vendor workflows, scalable backend infrastructure, and synchronized web and mobile commerce environments.
